## ABOUT US

### Different cost effective options

Since 2006 Magnum Educare is a global education organisation that helps students achieve their dreams to study abroad. We guide you to choose the best course in the best university that suits your budget. We have been operating for 16 years, creating a huge network of opportunities with offices in over 30 countries. At Magnum, we are dedicated to support you at every stage of your study abroad journey.

### Understanding the destination

Staying abroad is a life-altering experience. Whenever you stay in a different culture and climate for a long time, it changes your life. You make new friends from across the world. You see new places, get in relationships, and learn new things. Besides, for studying further in certain disciplines, you have to choose the best university/college. Sometimes, the best one is in another country. We shall assist in the complete enrollment process at a suitable overseas educational center. Whether you seek admission in a Public University or a Private one, we shall help effectively.

### Comprehensive counseling assistance

Our services also include guidance for securing an education loan. We have good connections in the education loan sector. Our suggestions would assist students in procuring the necessary monetary help on reasonable conditions. We provide the grooming for the visa interview. This is a very crucial procedure deciding your access to the education overseas. You need to be confident, honest, and brilliant in the interview. Our counselors shall conduct mock interviews until you are fully confident. We ensure you to achieve your dream of pursuing the best courses overseas. We assist in selecting the most appropriate course between different similar options. If you want to find the best courses in your subject in different countries, consult our site for the latest information. When you contact us via phone or emails, we shall promptly clear your doubts. After you compare the courses, the living costs, and other parameters, you can decide the right program on your own. Following your decision, we turn your dream into reality.

## Medical Education in Russia

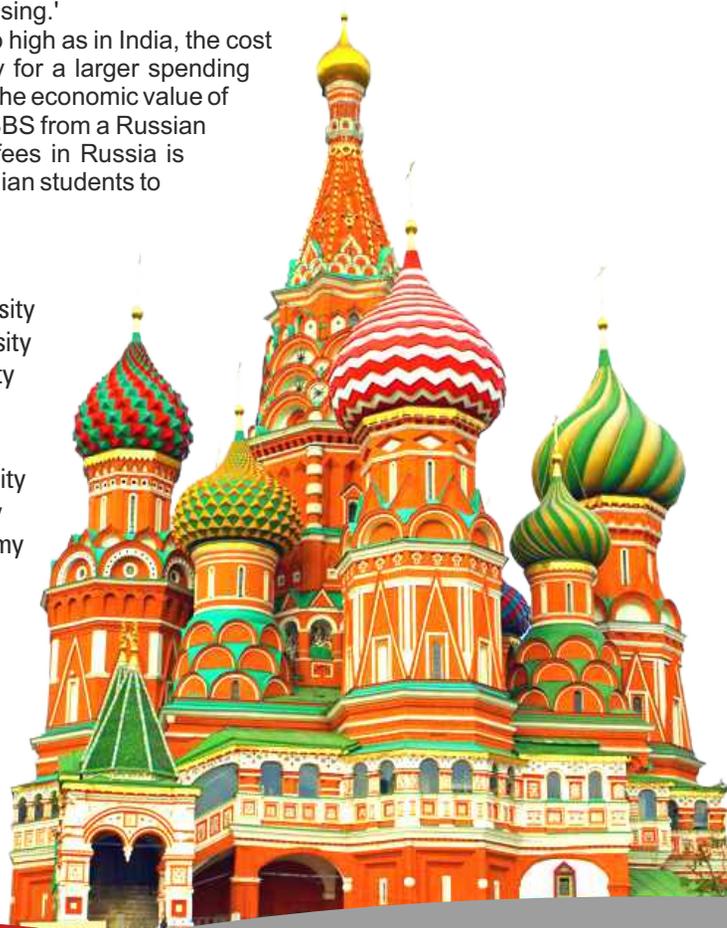

MBBS in Russia signifies to be one of the best options for pursuing MBBS Abroad. Studying MBBS in Russia is becoming popular among Indian students because it provides high-quality education at an affordable cost. Russia is the 8th top study destination where students around the globe come to study MBBS. About 30 positions are occupied by top Russian Medical Universities in the World rankings of medical universities.

Russia happens to be home to some of the best medical colleges of the world. These medical institutes operate under the supervision of the Ministry of Public Health of the Russian Federation. They are listed under the World Health Organization Directory of Medical Schools. Students from different parts of the world travel to Russia for pursuing their medical career and a major percentage of these international students consist of Indians. These students are thus eligible to appear for the MCI Screening test. Mbbs in Russia is considered to be one of the most advanced ones of the world and evidence of this is found in the well-equipped labs and classrooms of these universities. Teaching methods and standards are high and are able to render a student fit for pursuing his or her medical career in any country. Sessions at medical universities in Russia begin in September and each year is divided into two semesters.

Russian medical universities have a good infrastructure, exceptional faculty, and offer high-quality medical education. MBBS is the most popular medical course among international applicants. The level of MBBS study in Russia is well developed and advanced. Nowadays, most Russian medical universities provide MBBS study in the English language for foreign students at very affordable tuition fees. There are over 10000 Indian students currently studying in Russian medical universities, most of them are enrolled in MBBS course & every year these numbers are increasing.'

Cost to study MBBS in Russia MBBS tuition fee in Russia is not so high as in India, the cost of renting a room in university hostels is quite low, saving your money for a larger spending budget. Student living costs remain almost the same as in India because the economic value of the Russian ruble is the same as Indian Rupee. The cost of studying MBBS from a Russian medical university is within the budget of a common student. MBBS fees in Russia is subsidized by the Russian Government, which makes it affordable for Indian students to study MBBS in Russia.

## Medical Education in Kazakhstan

Kazakhstan lies in the north of the central Asian republics and is bounded by Russia in the north, China in the east, Kyrgyzstan and Uzbekistan in the south, and the Caspian Sea and part of Turkmenistan in the west. It has almost 1,177 mi (1,894 km) of coastline on the Caspian Sea. Kazakhstan is about four times the size of Texas. The territory is mostly steppe land with hilly plains and plateaus. The largest and wealthiest of the countries nicknamed the 'Stans', Kazakhstan has long been an ethnically diverse country; in the 2009 census, only 63% of residents were native Kazakhs.

This international element is also a key characteristic of the country's higher education sector, in which global collaborations and exchanges are occupying an increasingly prominent role, with universities in Kazakhstan keen to welcome international students and academics from across the world.

The main religion in Kazakhstan is Islam and rare animals found in the Kazakhstan are Leopard, Eagles and falcons. Every year more than 10,000 Indian students get MBBS admission in abroad. MBBS in Kazakhstan for Indian students is always the worth for money as medical education available at very minimal rates. Kazakhstan medical universities are globally admired because of its high-quality schooling methodology. In Kazakhstan, Clinical training is truly worth since the nation continues the common benchmark of medical training. All top medical universities in Kazakhstan are recognized by WHO, USMLE, IMED, GMC, MCI. Kazakhstan progress itself as a regional heart for Central Asia. MBBS in Kazakhstan is an immensely valued medical degree with best medical universities.

## Medical Education in Philippines

MBBS in Philippines is getting popular among Indian students who do not wish to study an additional language such as required in MCI recognized medical colleges or universities in China or European countries like Russia. This is due to the fact that, Philippines is an English speaking country. More than 95% of the people speaks English language. Philippines offers American system of medical education and the Primary Medical qualification is M.D. degree (MBBS). This qualification is globally recognized including the Medical Council of India. The MBBS program of Philippines is a unique opportunity for students who have passed 12th standard or equivalent examinations to pursue medical education of International standards. Colour, splendour and hospitable people, are all in the country of Philippines. With beaches and islands around it, the Republic of Philippines is like a mini retreat to vacationers and the local population alike. Weather condition is very similar to that in India, with rain and a temperate climate.
