ABOUT US

Since 2006 Study Overseas is a global education organisation that help students achieve their dreams to study abroad. We guide you to choose the best course in the best university that suits your budget.

We have been operating from 16 years, creating a huge network of opportunities with offices in over 30 countries. At Study Overseas, we are dedicated to support you at every stage of your study abroad journey.

Different cost effective options

Contrary to popular belief, foreign education is not always overboard with expenses. Some European countries do not even charge tuition fees for their course. They offer this facility because of Government funding of the education system. Scholarships are always available for eligible candidates. We shall help you prepare for the scholarship evaluation test. We maintain the latest resources of education funding opportunities in various countries of the world. You will find all necessary information at one place in our website. Our resources also include information on student swapping programs. Universities in different countries maintain ties with their Indian counterparts. Often students from different countries swap places. These are great opportunities for the eligible candidates.

Understanding the destination

Staying abroad is going to be a life-altering experience. Whenever you get to stay in a different culture and climate for a long time, it always has a changing effect in your life. You get to make new friends from across the world. You see new places, have new relationships, and learn new things. Besides, for studying further in certain disciplines, you have to choose the best university/college. Sometimes, the best one is in another country. We shall assist in the complete enrollment process at a suitable overseas educational center. Whether you seek admission in a Public University or a Private one, we shall help effectively.

Comprehensive counseling assistance

Our services also include providing guidance for securing an education loan. We have good connections in the education loan sector. Our suggestions would assist students in procuring the necessary monetary help on reasonable conditions. We shall provide the grooming assistance for the visa interview. This is a very crucial procedure deciding your access to the education system overseas. You need to be confident, honest, and brilliant in the interview. Our counselors shall conduct mock interviews until you are fully confident. We shall ensure you to achieve your dream of pursuing the best courses overseas. We shall assist in selecting the most appropriate course between different similar options. If you want to find the best courses in your subject in different countries, consult our site for the latest information. When you contact us via phone or emails, we shall promptly clear your doubts. After you compare the courses, the living costs, and other parameters, you can decide the right program on your own. Following your decision, we shall help to materialize it into reality.

India's relation with other countries

FROM THE DESK of DIRECTOR

It is my great pleasure to present our consultancy Study Overseas, established in 2006. STUDY OVERSEAS has achieved a phenomenal growth and completed 16 years in the service of overseas education.

Studying abroad is gradually becoming a popular trend among Indian students and they need an admission consultant for choosing the suitable course in a right college but most of the students are unaware about the admission procedures and hence we guide them in college admission and comprehensive admission guidance to students helping them to choose college & universities. Quality counseling has converted many dreams into reality. We deal

in all sorts of admission in **UK, USA, RUSSIA, EUROPE, CHINA, UKRAINE, GEORGIA, CANADA, AUSTRALIA, NEW ZEALAND, SINGAPORE** and other parts of the world.

Study overseas guides to gain excellent education in best overseas universities. Keeping in view the changing requirement of profession and best university overseas. We continuously update the courses and their syllabus being taught in universities.

You will be happy to know the track record of achievement of our study overseas, Many of our students have proved their mettle and have established themselves successfully in different Indian hospitals.

I once again extend a warm welcome and a cordial invite to visit our consultancy offices. STUDY OVERSEAS will help you to drive your career with maximum advantage.

With Best Wishes

Surender Singh Sahani

Director

Uzbekistan

Uzbekistan is located in the central part of Central Asia. It is bordered by Kyrgyzstan to the east, by Kazakhstan to the north-east, north and north-west, by Turkmenistan to the south-west and south, by Afghanistan to the south and by Tajikistan to the south-east. The total length of the borders is about 5,300 km. The northernmost boundary of Uzbekistan is located in the north-east Ustyurt plateau (45° 36' N), the southernmost boundary is near Termez city on the Amu Darya banks (37° 11' N), the westernmost boundary is on the Ustyurt plateau (56° E), and the easternmost boundary is in the east Fergana valley (73° 10' E).

The climate in Uzbekistan is continental, with hot summers and cool winters. The southern part of the country is the warmest and the northern part is the coldest. In summer temperature often exceeds 41°C (106°F), and can even reach 45°C (113°F) and above. Air humidity is not high. In winter temperature averages around -8°C (18°F), but can fall to -40°C (-40°F). Most of the country is also quite dry. Average annual precipitation range from 100 mm (3.9 in.) to 200 mm (7.9 in.) and mostly occur in winter and spring.

boundary is near Termez city on the Amu Darya banks (37° 11' N), the westernmost boundary is on the Ustyurt plateau (56° E), and the easternmost boundary is in the east Fergana valley (73° 10' E).

Why MBBS In Uzbekistan ?

1. Uzbekistan has many government-funded universities, and some universities are recognised by the MCI.
2. Students are not required to appear for any language proficiency tests to get admission to a good medical university in Uzbekistan.
3. The medium of instruction in the medical universities in Uzbekistan is English, and this makes it easier for the Indian students to study in Uzbekistan.
4. Indian students get international exposure, and it must also be noted that Uzbekistan is a safe country for Indian students.

Tashkent Medical Academy Urgench branch

Tashkent Medical Academy is a government medical university established on April 13, 1919 in the Tashkent city for training highly qualified medical personnel throughout the nation by imparting an effective organization of specialised educational process.

The first branch of this renowned institution was established in March 1992 as Urgench branch of Tashkent Medical Academy by the Decree of the Cabinet of Ministers and order of the Ministry of Health of the Republic of Uzbekistan as Khorezm regional center for advanced training of medical workers.

Later on in 1995 the branch was transferred as a medical center with two faculties to Urgench State University which nowadays offers 58 Bachelor degree, 27 Master degree and 20 PhD programs with number of students studying at different specialties counting up to 16496 out of which 1189 are foreign students.

Finally on June 3, 1998, the Urgench State University Medical Center was transformed into an independent educational institution named as – Urgench branch of the first Tashkent State Medical Institute to provide affordable medical education of global standard and to bring reforms in the health care system.

Tashkent Pediatric Medical Institute

Tashkent Pediatric Medical Institute founded in 1972 on the educational services market of the Republic of Uzbekistan, the Central Asian Medical Pediatric Institute transferred to the Ministry of Uzbekistan in 1988 and reorganized into the Tashkent Pediatric Medical Institute. It has graduated more than 29500 highly qualified medical doctors since it was founded. The university is located in Tashkent, the capital city of Uzbekistan.

In view of a lack of Pediatricians in the area and a high infant mortality rate in the region, the institute's main objective was to train highly qualified doctors and Pediatricians. A change in name to Tashkent Pediatric Medical Institute took place in 1989 by the Uzbek Ministry of Health. Pediatrics has been a major focus of the university for many years. Pediatrics, Pediatrics, medical biology, and medical pedagogical and medical faculties comprise the undergraduate program. Several departments within each faculty offer courses. Students interested in doctoral studies have the option of applying to two doctoral programs. A range of advanced medical courses are also offered at the university for public and private sector workers.
