ABOUT US

Since 2006 Study Overseas is a global education organisation that help students achieve their dreams to study abroad. We guide you to choose the best course in the best university that suits your budget.

We have been operating from 16 years, creating a huge network of opportunities with offices in over 30 countries. At Study Overseas, we are dedicated to support you at every stage of your study abroad journey.

Different cost effective options

Contrary to popular belief, foreign education is not always overboard with expenses. Some European countries do not even charge tuition fees for their course. They offer this facility because of Government funding of the education system. Scholarships are always available for eligible candidates. We shall help you prepare for the scholarship evaluation test. We maintain the latest resources of education funding opportunities in various countries of the world. You will find all necessary information at one place in our website. Our resources also include information on student swapping programs. Universities in different countries maintain ties with their Indian counterparts. Often students from different countries swap places. These are great opportunities for the eligible candidates.

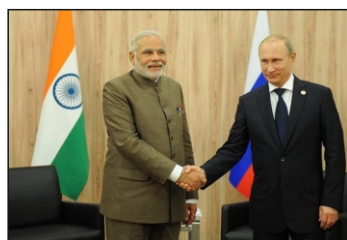

Understanding the destination

Staying abroad is going to be a life-altering experience. Whenever you get to stay in a different culture and climate for a long time, it always has a changing effect in your life. You get to make new friends from across the world. You see new places, have new relationships, and learn new things. Besides, for studying further in certain disciplines, you have to choose the best university/college. Sometimes, the best one is in another country. We shall assist in the complete enrollment process at a suitable overseas educational center. Whether you seek admission in a Public University or a Private one, we shall help effectively.

Comprehensive counseling assistance

Our services also include providing guidance for securing an education loan. We have good connections in the education loan sector. Our suggestions would assist students in procuring the necessary monetary help on reasonable conditions. We shall provide the grooming assistance for the visa interview. This is a very crucial procedure deciding your access to the education system overseas. You need to be confident, honest, and brilliant in the interview. Our counselors shall conduct mock interviews until you are fully confident. We shall ensure you to achieve your dream of pursuing the best courses overseas. We shall assist in selecting the most appropriate course between different similar options. If you want to find the best courses in your subject in different countries, consult our site for the latest information. When you contact us via phone or emails, we shall promptly clear your doubts. After you compare the courses, the living costs, and other parameters, you can decide the right program on your own. Following your decision, we shall help to materialize it into reality.

India's relation with other countries

FROM THE Desk of DIRECTOR

It is my great pleasure to present our consultancy Study Overseas, established in 2006. STUDY OVERSEAS has achieved a phenomenal growth and completed 16 years in the service of overseas education.

Studying abroad is gradually becoming a popular trend among Indian students and they need an admission consultant for choosing the suitable course in a right college but most of the students are unaware about the admission procedures and hence we guide them in college admission and comprehensive admission guidance to students helping them to choose college & universities. Quality counseling has converted many dreams into reality. We deal

in all sorts of admission in **UK, USA, RUSSIA, EUROPE, CHINA, UKRAINE, GEORGIA, CANADA, AUSTRALIA, NEW ZEALAND, SINGAPORE** and other parts of the world.

Study overseas guides to gain excellent education in best overseas universities. Keeping in view the changing requirement of profession and best university overseas. We continuously update the courses and their syllabus being taught in universities.

You will be happy to know the track record of achievement of our study overseas, Many of our students have proved their mettle and have established themselves successfully in different Indian hospitals.

I once again extend a warm welcome and a cordial invite to visit our consultancy offices. STUDY OVERSEAS will help you to drive your career with maximum advantage.

With Best Wishes

Surender Singh Sahani

Director

China

All the Chinese medical schools are listed in World Health Organization (WHO) and it means that the graduates from these medical schools or universities can attend national medical screening tests such as NEXT(MCI), PMDC, USMLE, PLAB, SCHS etc.

The medical degrees obtained from the medical universities in China are recognized globally.

China's medical universities are ranked among the top 500 universities in the world.

It is easy to get admission in a top medical university in China than USA, UK, or Europe, even India or Pakistan.

Studying MBBS in China is 70% cheaper than studying it in US or UK. In China, the duration of MBBS program is of 6 years. It is very affordable for international students to study in China.

Students can experience various international cultures under one roof.

As China has the largest population in the world, there are many advanced international standard hospitals where Indian students can do their internships.

There is good public security in China. It is a peaceful place. To provide safe living environment to international students, the care is taken by the government of China

Suzhou University, China

Founded in 1900, Suzhou University is located amidst the 'Paradise on Earth', Suzhou, in Jiangsu Province, China. A major, all-inclusive a key provincial institution, Suzhou University (also known as Soochow University) is one of the few medical universities in china that is well-supported by 'Project 211', governed by the Ministry of Education.

Comprising of 5 campuses, the university is extensively spread over 513.6 acres while the building area covers 385.4 acres. With around 50,000 enrolment, Suzhou University annually welcomes more than 2,000 international students.

What makes Suzhou University one of the best medical colleges in china for Indian students is, without doubt, its exceptional infrastructure, robust background and being well equipped. For more than a century, the university has been successfully churning out over hundreds and thousands of talents, including eminent academicians and scholars in various professional fields. In fact, the former Soochow Medical University gave form to Medical College of Soochow University (MCSU), has a rich academic legacy of more than 90 years. There are 4 clinical medicine departments under this college, 14 affiliated hospitals, 61 teaching hospitals, 10 pharmacy intern centres, 10 forensic medicine intern bases, 10 preventative medicine intern bases and 18 off-campus intern bases for biomedical teaching as well as research purposes. Currently, MCSU houses more than 2280 Graduate students, 4700 undergraduates and 750 international students.

Those who are opting to study mbbs abroad, can regard Soochow Medical University as the safest bet, as it is among the WHO World Directory of Medical Schools list. Moreover, after completing MBBS from here, the graduates are eligible to undertake Medical Licensing Examinations organised by the medical councils in various countries including MCI, USMLE, PMDC, HPCSA and SCHS among others.

Also, one of the reasons for this university to enter the list of top MBBS universities in China is, that it offers excellent assistance in international exchange and training programs. Every year, several professors and scholars are invited to host lectures and trainings; proving that it has established robust partnership and cooperation with many overseas universities and institutions. The university, moreover, helps students extensively by arranging internships in befitting areas. All these factors makes Soochow Medical University the best place to do MBBS in china for Indian students, as it will provide good exposure through outstanding empirical and pedagogic experience.

Suzhou University, China - Overview

Basic Eligibility	: 10+2 with 70% in PCB

Why Xiamen University, China?

Strength of the South: XMU, founded in 1921 by Mr. Tan Kah Kee, the renowned patriotic leader of overseas Chinese, was the first Chinese higher-education institution established by an overseas Chinese.

Ranked top 15 among the over 2,000 universities in Mainland China, XMU is on track to become a world-renowned research university and is committed to creating an internationalized academic environment and collegiate culture. XMU is recognized as a first-class national institution of higher learning with an international reputation as a center of scholarly excellence.

Garden-Style Campuses: XMU campuses are situated around the Xiamen Bay on the western coast of the Taiwan Strait, with breathtaking views of undulating green hills and vast expanses of seawaters. They rank among the world's most beautiful campuses. Located on the southern tip of Xiamen Island, the Siming campus lies in close proximity to several places of interest and is adjacent to a sandy beach.

The newly-built Xiang'an Campus is situated in Xiamen's Xiang'an District, bounded by the Xiangshan Scenic Area on the north and the sea on the south. XMU campuses are landscaped as beautiful gardens, with serene lakes, lush foliage and magnificent buildings of Kah Kee architectural styles.

Highly Professional Faculty And Well-Established Disciplines: XMU sustains its status as a pre-eminent center of learning through continuous human resources development. The University has recruited a large number of top-notch professors, many of whom are prominent scientists and leading scholars.

XMU currently has a faculty of 2,662, of whom 82.87% hold doctoral degrees. XMU affords high priority to the diversification and internationalization of the mix of its faculty. Professors and researchers with doctorates awarded by overseas universities are playing an increasingly important role at XMU. XMU offers a comprehensive range of programs in Humanities, Social Sciences, Natural Sciences, Engineering and Technology, Management, Art Sciences and Medical Sciences.
