ABOUT US

Since 2006 Study Overseas is a global education organisation that help students achieve their dreams to study abroad. We guide you to choose the best course in the best university that suits your budget.

We have been operating from 16 years, creating a huge network of opportunities with offices in over 30 countries. At Study Overseas, we are dedicated to support you at every stage of your study abroad journey.

Different cost effective options

Contrary to popular belief, foreign education is not always overboard with expenses. Some European countries do not even charge tuition fees for their course. They offer this facility because of Government funding of the education system. Scholarships are always available for eligible candidates. We shall help you prepare for the scholarship evaluation test. We maintain the latest resources of education funding opportunities in various countries of the world. You will find all necessary information at one place in our website. Our resources also include information on student swapping programs. Universities in different countries maintain ties with their Indian counterparts. Often students from different countries swap places. These are great opportunities for the eligible candidates.

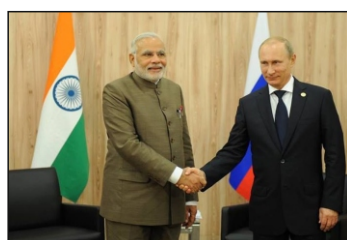

Understanding the destination

Staying abroad is going to be a life-altering experience. Whenever you get to stay in a different culture and climate for a long time, it always has a changing effect in your life. You get to make new friends from across the world. You see new places, have new relationships, and learn new things. Besides, for studying further in certain disciplines, you have to choose the best university/college. Sometimes, the best one is in another country. We shall assist in the complete enrollment process at a suitable overseas educational center. Whether you seek admission in a Public University or a Private one, we shall help effectively.

Comprehensive counseling assistance

Our services also include providing guidance for securing an education loan. We have good connections in the education loan sector. Our suggestions would assist students in procuring the necessary monetary help on reasonable conditions. We shall provide the grooming assistance for the visa interview. This is a very crucial procedure deciding your access to the education system overseas. You need to be confident, honest, and brilliant in the interview. Our counselors shall conduct mock interviews until you are fully confident. We shall ensure you to achieve your dream of pursuing the best courses overseas. We shall assist in selecting the most appropriate course between different similar options. If you want to find the best courses in your subject in different countries, consult our site for the latest information. When you contact us via phone or emails, we shall promptly clear your doubts. After you compare the courses, the living costs, and other parameters, you can decide the right program on your own. Following your decision, we shall help to materialize it into reality.

India's relation with other countries

FROM THE Desk of DIRECTOR

It is my great pleasure to present our consultancy Study Overseas, established in 2006. STUDY OVERSEAS has achieved a phenomenal growth and completed 16 years in the service of overseas education.

Studying abroad is gradually becoming a popular trend among Indian students and they need an admission consultant for choosing the suitable course in a right college but most of the students are unaware about the admission procedures and hence we guide them in college admission and comprehensive admission guidance to students helping them to choose college & universities. Quality counseling has converted many dreams into reality. We deal

in all sorts of admission in **UK, USA, RUSSIA, EUROPE, CHINA, UKRAINE, GEORGIA, CANADA, AUSTRALIA, NEW ZEALAND, SINGAPORE** and other parts of the world.

Study overseas guides to gain excellent education in best overseas universities. Keeping in view the changing requirement of profession and best university overseas. We continuously update the courses and their syllabus being taught in universities.

You will be happy to know the track record of achievement of our study overseas, Many of our students have proved their mettle and have established themselves successfully in different Indian hospitals.

I once again extend a warm welcome and a cordial invite to visit our consultancy offices. STUDY OVERSEAS will help you to drive your career with maximum advantage.

With Best Wishes

Surender Singh Sahani

Director

Belarus

The Republic of Belarus (Belarus) is located in the Eastern part of Europe. The country is divided into six regions (oblasts): Brest, Homiel, Hrodna, Mahiliou, Minsk and Viciebsk. The capital city of Belarus is Minsk, the biggest political, economic, scientific and cultural centre of the country. The population of Minsk is 1 982 500 (beginning of 2018) people. The territory of Belarus covers 207,595 square kilometres. The longest distance, 650 km, is from the West to the East, and 560 km from the North to the South. The population of Belarus is 9 478 200 people (July

2018). Representatives of more than 100 nationalities live in Belarus. The majority of the population is represented by the indigenous Belarussians, who constitute more than 3/4 of the entire population. The terrain of Belarus is predominantly low, hilly and flat. Agricultural land occupies 42.29% of the territory, forests account for 42.55%. There are more than 20,8 thousand rivers and creeks with total length of 91 thousand kilometers and about 10,000 lakes in Belarus. The biggest lake is the Narach Lake (about 80 square kilometres). About 30 types of mineral raw materials have been prospected in Belarus. The most significant are potassium salts, the reserves of which occupy one of the leading places in Europe. Belarus is the main producer of cement and hydrocarbons in Europe. The country is the world's third largest producer of potash fertilizers. Belarus is also rich in rock products and has vast reserves of peat.

Why MBBS In Belarus ?

- MBBS Belarus has been the top choice among the Indian students and almost over the past two decades Indian students have been travelling to study medicine in Belarus.
- Almost all of the MBBS universities in Belarus offer degrees that are recognised globally and hence worth opting for MBBS Belarus.
- The students opting for MBBS from Belarus find it easy to clear the Screening Test conducted by MCI or Medical Council of India which is mandatory for the continuation of practice in India.
- Ultimately, the colleges for MBBS in Belarus that are approved by the Medical Council of India lies among the top ten medical colleges in the nation of Belarus.
